

Write and explain your definition your art

Art is a creative medium used to express ideas about the world. It also the conscious use of skill and imagination. Art usually means something that is created without simply looking at the practical viability of the product.

Select a photo of something which you consider an artwork

Write about what makes the object that you chose art

I consider that the object that I chose to be art since it also looks to be aesthetically pleasing. If we analyze the image closely, we could also see that bits and pieces that explain the situation during Jesus's last supper. It is also a conscious use of skill and imagination for the art requires careful planning to be created in the first place. This could readily be seen from the fact that none of us would be able to create this kind of art today even if we tried hard. We could also see that the object is not simply created for some pragmatic reason. The object is also created for its beauty.
